VERONA 18/08/1971

Grew up in padova, I moved to Milan to attend Istituto Europeo di Design, and I stopped there for many years (18!) fascinated by the city and by a job that i still consider amazing. Come to a turning point both personal and professional, I moved to Greece 10 years ago, where the place, the sun and the sea are the biggest inspiration. I have more than twenty years of experience, both in traditional graphics on paper and on the web.
